**TOGETHER
WE CAN SHUT
THEM DOWN.
DESTROY THE
ARMS TRADE!
DISARM DSEI!**

Defence Systems and Equipment International (DSEi), the world's largest arms fair, is taking place at the ExCeL Centre, London Docklands, from 13 - 16 September 2005.

DISARM DSEi is calling for a week of action and resistance against this evil trade, both at the exhibition and at relevant targets across the country. There are also plans for a convergence space and two day conference.

Remember DISARM DSEi 2003?

Arms fair preparations blockaded, trains and buses full of delegates stopped, DSEi security breached, arms companies' offices visited by day and night, blockades, street protests and many other actions, £4.5 million spent on policing.

This time, it's up to YOU!

There's loads to do - organising actions, publicity, fundraising, convergence spaces, mobilisation...the list is endless.

Come to the meeting and find out more.

There may be police photographers outside the meeting; you may wish to wear a scarf in this warm weather!!
