

**STOP THE ARMS TRADE...  
BEFORE IT STOPS YOU!**

**21.03.2005  
INTERNATIONAL  
DAY OF DIRECT ACTION  
AGAINST THE ARMS TRADE**

**International groups are calling for a day of direct action against the arms trade on 21<sup>st</sup> March 2005 to coincide with the second anniversary of the start of war on Iraq.**

The international arms trade is responsible for death, destruction and misery all over the planet. Arms dealers profit from war and are constantly looking for ways to sell their deadly technology to whichever side is prepared to pay, often at the taxpayer's expense.

Join us and show that we will not tolerate this murderous trade.

**Support this call to action, find your local arms dealer and organise an action in your area.**
