

Diaper DSEi!

We will not be pacified!

Shut Down the World's Largest Arms Fair

As part of a week of action against DSEi (Defence Systems & Equipment International), we are calling for a Baby Bloc against the world's largest arms fair.

Children are often the main victims of armed conflict. According to UNICEF, an average of 2000 children are killed, maimed or disabled by war every single day.

Join us to show solidarity with children everywhere!
