

DISARM DSEi 2005

SHUT DOWN THE WORLD'S LARGEST ARMS FAIR!

DSEi (Defence Systems and Equipment International) is a biennial arms fair organised by Spearhead Exhibitions. The next fair is in September 2005 and our presence here outside the Reed and Spearhead offices is part of an ongoing campaign to stop DSEi 2005 and shut down Spearhead.

DSEi is the world's largest arms fair with 973 exhibitors including murderous arms companies Lockheed Martin, British Aerospace, and Rolls-Royce. In 2003 delegates attended from 65 countries including war torn areas of the Middle East and Africa.

In 2003 Spearhead Exhibitions, organiser of the DSEi arms fair for five years, was bought up by Reed Exhibitions and later moved into the Reed offices.

We want to let Reed know that buying Spearhead will not be a profitable venture.
