

# BABY SHOW SUPPORTS THE ARMS TRADE

Clarion Events, owners of The Baby Show, plan to host DSEi, the world's largest weapons fair, at ExCeL in September.

Last year invitations were extended to more than 50 countries, including states with records of **widespread human rights violations**. These include Saudi Arabia, Colombia and China.

Clarion have recently acquired four more arms fairs and have joined the **Defence Manufacturers Association**, a signal that they now consider themselves **arms traders**.
